

CDC 128C-2 DEVELOPMENTAL DISABILITY PROGRAM SCREENING RESULTS

Excluded from DDP after Phase # _____

- ☐ NCF Received passing score on cognitive test: (circle one) Quick TONI-3 GAMA Wechsler
- ☐ NDD No substantial adaptive support needs from cognitive deficit. No reevaluation without referral

Included in DDP after C.A.S.E. in Phase # III

Must have a Staff Assistant in disciplinary hearings, classification committee hearings, investigative employee interviews, and in all contacts involving the use of a CDC Form 114-D (administrative segregation reviews and hearings).

- ☒ DD1 Does not usually require prompts to initiate/complete activities of daily living (ADLs). Inmate may need adaptive supports when under unusual stress or in new situations.
- ☐ DD2* Requires occasional prompts to initiate/complete ADLs. And/or has Victimization Concerns: requires housing in a designated DDP building/unit/wing, consistent with case factors.
- ☐ DD3* Requires frequent prompts to initiate/complete activities of daily living. * Victimization Concerns.

Assist in reading and writing CDCR forms.

Use simple language and only 1-2 step instructions.

Provide repetition of new information until the inmate is able to independently demonstrate understanding in his own words.

Monitor inmate's performance with ADL tasks such as maintaining adequate hygiene, clean cell, etc. Inmate tends to not ask for assistance when needed and can become defensive when ADL skills are questioned.

Give extra time to adjust to new routines and environments.

Possible developmental disability before age 18? ☒ Yes/Unknown ☐ No
